

## April 16 edition hits home

This week's front page and your Brock's Banter were such a typical example of you reading the meaning of events and organizations happening in Aurora that I just had to write in and commend you on your writing.

There are many other editions that are as well put together but this one was personal as I am a member of Aurora United Church. The article the week before on the upcoming benefit concert was evenly excellent in putting words to the meaning of that event as well.

I realize most letters to the editor are of the complaint variety about one thing or another, mine this time is purely one of praise of you and the rest of the staff putting The Auroran together.

The quality of the articles in the Auroran is one of the many reasons why I consider The Auroran one of the best papers that come - free of charge yet - into my home!

So, kudos to you and your staff!

Brigitta Gamm
