

Johnston's cartoon was funny, but?

(Re: Machell's Corners, June 16)

I saw the cute Machell's Corners comic this week in the local paper.

I am on the Mavrinac Park Residents distribution list and, while [the cartoon] is funny, we are not asking for baseball, splash pads, community gardens, washrooms and only one of fitness or ?mini? soccer.

The ?ingredients? which are left in the comic seem to be a perfect combination for what we all want and we hope that the town can accommodate.

The initial plan is almost perfect!
