Virgo

(August 23 ? September 22)

Always know that you have the power over your mind, Virgo. And your mind will be busy this month. Use your nervous energy to share what is constructive and realistic, versus worrisome. Don't let the negativity get stuck in your head!

Sagittarius

(November 22 ? December 21)

Find a restful sanctuary to help you through times of change this month. There may be sudden surprises and excitement, but find some time to process the happenings alone. Feelings will be big and large, so let them out.

Capricorn

(December 22 ? January 19)

Take time to reflect on your wins and losses this month. Share what needs to be said, especially if it is the bare bones truth. Relationships will be better for this type of authenticity. Your burdens will feel less too.
