

# NORTHERN LIGHTS: September Horoscopes

**By Jodie Cara Lindley**

Virgo (August 23 ? September 22)

Wealth is your keyword for September, Virgo. This can apply to anything: a wealth of deep wisdom; a wealth of abundance; a wealth of change. Your mind will also be focused on a wealth of details and practical matters. All will balance out.

Libra (September 23 ? October 22)

Your perceptions are due to undergo a reworking, Libra. Consider September a time of initiation into a different type of vision and insight. You are keen for hard work now, and it will pay off in the end. By the end of the month, life will equalize.

Scorpio (October 23 ? November 21)

Keep strong in your sense of integrity, Scorpio. You may feel like easing off a bit by mid-September, but don't lose your focus. That may be difficult, but allow what enthralls you to drive you forward. Also, be proud of what you have already accomplished.

Sagittarius (November 22 ? December 21)

The rebel inside wants out Sagittarius! You are in an incredibly creative time of your life, and nothing is in your way. Self-expression is vital for you in September. Let whatever inventive and dynamic genius screaming within out!

Capricorn (December 22 ? January 19)

You have the gift of endurance this month, Capricorn. This is not new for you! There are many projects to tackle, and you have the required energy now. Engaging in artistic pursuits and self-expression will help you achieve what you want.

Aquarius (January 20 ? February 18)

Take on the role of a ?charismatic visionary? this month, Aquarius. What does that mean? It means to say whatever genius is on your mind with gusto, foresight and poise. You have something unique to share, so honour that gift.

Pisces (February 19 ? March 20)

The Fool in the tarot deck is your personal mentor for September, Pisces. Go about life with a foolish grin and a sense of freedom. Look at everything with fresh eyes and innocence. This will get you farther than being self-deprecating.

Aries (March 21 ? April 19)

Your cup is full Aries. Enjoy this time of abundance, and the occasional running over of goodness this month. Your fire power energy will continue to gain speed, but make sure to rest when you feel a bit hazy. Go after that which inspires you.

Taurus (April 20 ? May 20)

Compassion is your keyword for September, Taurus. While you may feel self-critical and under pressure, make sure you have empathy for yourself. You are in a period of hard work right now. You will feel stronger by month's end.

Gemini (May 21 ? June 20)

Don't let your mind interfere with your inner balance in September, Gemini. You will be seeking peace and turning over new ground on a mental level, simultaneously. You can do this. Use your innate duality to claim serenity in the midst of chaos.

Cancer (June 21 ? July 21)

You will be thinking a lot about your life this month, Cancer. That is okay. Contemplation is good for you now. Use your mind to work out the details and set out a plan, and apply your incredible intuition to feel the best method of application.

Leo (July 22 ? August 22)

Connect to fire and earth energies this month, Leo. Insight and illumination, balanced with practicality and work, are the keys to

your success now. By the end of September, you will feel much more balanced and secure in everything.
