

MPP's column leaves reader 'stunned' on Autism funding

(Re: View from Queen's Park, April 14)

Well, Chris, I just read your article in The Auroran and I'm stunned!

Your timing is impeccable; your Premier just cut funding to kids over the age of five for therapy that changes their lives!

You asked for calls to your constituency office with questions and I hope you get those calls and you encourage your Premier to amend this piece of budget.

Do the right thing and support your constituents, not your Premier!

Perhaps next week you could delve into greater detail your government's reasoning and why you support it.
