

Resident unhappy with Councillor

John Abel, the deputy mayor of Aurora says one thing and does another. He tells you he is going to fix the Cultural Centre and then he gives them more money than previous years. He brings in a consultant to do a fix on Aurora artefacts.

Job done.

Then Council postpones the finish of the job. Then a consultant started on the Cultural Centre and is still going ? the Cultural Master Plan.

Question: Does the Council know what they want, or what they are doing?

I talked to Mr. Abel about how he was pushing for the Heritage Park. No. I want developers to purchase the land and develop the area.

John states one thing and does another. John likes to win ? thus, say one thing and do another.
